

# Tally DASCOM 2820: Peak performance

The 2820 printer is meticulously designed for peak performance. DASCOM'S fastest matrix forms printer offers exceptional print speeds, throughput, and workload capability for heavy operation in demanding environments.

Dual friction paper handling means forms are easy to feed and print, while a metal tear bar limits the chance of wasted forms.

The printer is designed for automated operation so user intervention is minimized, and menu settings can even be saved via the USB host interface or new

### Highlights at a glance:

- Print up to 1200 characters per second at 12 CPI
- Rated workload 50,000 printed pages per month
- Long-life print head rated at 750 million charac-
- Ethernet interface with IPv6 support
- Wide range of connectivity options
- Print up to 6 copies (original + 5)
- Metal tear-off edge for no wasted forms
- Low decibel guiet operation
- Industrial design for demanding environments

firmware can be uploaded easily.

A backlit display means all information can be read easily. Also a browser-based Tally DASCOM Web Panel is available for network management.

Equipped with an Ethernet interface with Ipv6 support and a USB interface as standard, the

printer can also be upgraded with serial/parallel interface thus making it flexible and easy to integrate into many systems.

### Common Applications:

Warehouse environments Manufacturing Trucking & Logistics Retail Other industrial environments
